## EDUN RAW MILK CHEESE

Edun is a true raw milk cheese with milk heated to <100 degrees during the cheese making process. Leaving the milk as pure & unadulterated as possible allows us to preserve healthy enzymes and highlight the quality of our milk. Edun's flavor varies based on Wisconsin's seasonal changes and develops more interesting & robust notes as it ages.

*Edun is meticulously handcrafted with Red Barn milk by Master Cheesemaker Jon Metziga of Willow Creek Creamery in Berlin, WI.*

## ABOUT RED BARN FAMILY FARMS

Red Barn Family Farms started in 2008 with two small family farms and a mission to advocate for ethical, small-scale dairy farming. One farmer was a rotational grazer; the other used organic practices. We developed an innovative, above-market pay scale to fairly reward our family owned and operated farms for achieving standards of excellence. The result? Small family farms stay in business, and Red Barn gets top quality milk to produce delicious, award-winning cheeses.

As we grew, we didn't make our farms bigger, we just added more producers who know and care for their cows as individuals and put their health and welfare first. Our farms milk an average of just 55 pasture raised cows, all known and cared for by name. Animals spend time outdoors daily, weather permitting and live longer lives.
