

Star Line Candy Shoppe Amish

“My family started candy making when I was a little boy growing up in Missouri. When I was 16 my family moved to Iowa, where there was no time for candy. But the tradition was kept alive through the years, by making candy at family events. My wife, Amelia, and I have a total of 15 children. Opening a Candy Shoppe was a great way that provided me with a way to provide for my family, as well as something I like to do! Besides candy making I work construction on a part-time basis. However, we hope you will help our business grow and progress! Currently, we have 16 different varieties of homemade candy! Our tasty treats might change as time goes on; adding and dropping some of our products. My personal favorite is Cashew Crunch. Peanut clusters and peanut brittle are always good sellers.
